

P406

Supervision & Management / Safe Removal & Disposal of Asbestos

This module provides the trainee with the theoretical knowledge and practical skills to act as a Supervisory Licence Holder (SLH). The course culminates with a formal BOHS examination and a full practical assessment in mock site-setup conditions.

Day 1

- Types, properties and uses of asbestos
- Health hazards
- Principle Health & Safety Legislation
- Control of Asbestos Regulations 2006 & ACOPs
- Control Limits

Day 2

- Removal of Asbestos
- Site preparation
- Enclosures & equipment
- Removal techniques
- 4-stage clearance & site re-occupation
- RPE, PPE & decontamination procedures
- Accident & emergency procedures

Day 3

- Practical training & BOHS assessment
- RPE and PPE
- Decontamination units
- Enclosures & Dust suppression

Day 4

- Question & answer session
- BOHS multiple choice examination

Candidates must successfully pass both the 1hr 15 minute examination and practical assessment in order to receive the proficiency certificate for this module, which is administered by the British Occupational Hygiene Society.
